

Who we are:

Our staff is comprised of highly qualified aviation security professionals including veteran TSA officials and airline executives. All of our personnel are trained and have experience providing worldwide aviation security consultation services to air carriers, airports and ground handling companies.

We have been providing professional aviation security services since the mid '90s to long-term clients in North, Central and South America as well as in Asia, Africa and Europe.

What we offer:

Consulting on aviation security regulatory matters;
Operation establishment and management;
Comprehensive cargo security training;
Training program development;
Training of Ground Security Coordinators (GSC's);
and other persons with airline security responsibilities;
Threat, vulnerability and risk assessments;
Security audits of carrier operations and line stations;
Start-up carrier TSA certification assistance;
Airline and airport security equipment.

Other services:

AIRLINE REPRESENTATION

Worldwide airport representation services. Management and coordination of all airport, passenger service and ramp operations. Airport representatives are highly experienced airline operations managers with extensive knowledge of passenger service operations, HAZMAT, aircraft loading, servicing and fueling. They can also ensure compliance with CPB's APIS requirements.

SCREENING EQUIPMENT CONSULTATION AND SALES

Helping organizations obtain a full range of screening equipment such as metal detectors, x-ray machines and ETD's. We work with top screening equipment manufacturers and our consultants will help you select right equipment based on regulatory requirements and the security needs of your organization.

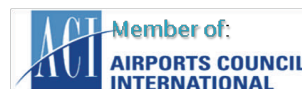

INDIRECT AIR CARRIER (IAC) TRAINING

This is a comprehensive training program for Indirect Air Carrier Standard Security Program (IACSSP) holders. Our instructors will provide you with cost effective training, tailored to your specific cargo operations, in order to meet new TSA IACSSP requirements. We can also assess your current cargo operations and training system for compliance against new standards and prepare your company for TSA inspections.

Training:

CARGO TRAINING

Cargo Security Training for passenger and all cargo carriers

Offering a complete solution to your cargo security requirements. This includes assessments, training, implementing procedures and oversight.

Cargo Acceptance and Handling Training

A comprehensive solution to cargo acceptance that includes training programs, forms, records, handouts and implementing procedures

Cargo Security Training

This is TSA compliant screener training. Components of the program include a training curriculum (with an extensive IED recognition module), forms for all your screening operations needs, handouts and implementing procedures.

All Cargo Operations Training

These are dedicated services for US and International all-cargo air carriers. Airlines operating or are interested to establish air service to the US can use our team of experts to assist corporate security managers in establishing procedures and training sessions that are compliant with Transportation Security Administration requirements.

EXTRAORDINARY TRAINING

Interviewing passengers in an effective and non-discriminatory manner requires extraordinary training and skills. Our intensive program is combined with an on-the-job module which is conducted by highly experienced supervisors. We also provide training of Aircraft Search personnel, ramp guards and screeners using physical searches, handheld Metal Detectors and X-Ray equipment.

CREW MEMBER TRAINING

Training of cockpit and cabin crew in compliance with TSA requirements.

GSC Training

For over a decade our instructors have trained hundreds of GSC's around the world.

The program exceeds TSA standards and covers all types of operations including domestic, international, non extraordinary, extraordinary, private charters, cargo acceptance and screening, all cargo flights, wet leases and sub services. When trainees complete the course, they have gone through a thorough review of current regulations and security issues.

Satisfied returning customers made us number one choice in GSC training.

Corporate Security Director Training

This is a unique tailor-made program intended to provide managers trusted with a security department of an air carrier with tools and information needed for a compliant

Compliance:

REGULATORY COMPLIANCE

Handling LOI's, creating amendments, and consulting on other regulatory compliance matters. Our regulatory experts regularly provide assistance with questions on TSA regulatory matters such as LOI's, amendments and interpretation. Having an experienced, knowledgeable and recognized professional on your side can be invaluable.

Security Manuals and Audit

We have authored an entire library of airline security manuals that can offer you a solution based on your operational requirements.

Our experts routinely conduct audits of aviation security operations around the world. Audits are always done with customer's goals in mind be it internal evaluation or preparation for TSA inspections.

Certification Assistance for Start up Carriers

We provide comprehensive solution for the start up carriers seeking TSA certification. Services include submission of required documentation to the TSA, liaison with the TSA, training sessions as well as close follow up and consulting during the first months of operations.

Foreign and Domestic Airport Assessments

We review current security measures, identify potential threats and vulnerabilities, and provide recommendations to assist the airport with enhanced security. Recommendations provided are aimed to decrease vulnerabilities to potential terrorist attacks and other criminal acts.

For foreign airports we can offer assistance with TSA certifications, provide recommendations for the improvement of current security systems, training process and equipment. We also provide liaison with US government, oversight, management and planning.

Expert Witness Service

We can provide court-qualified expert witness services on TSA regulatory compliance matters. This for carriers and airports regulated under 49 CFR 1542, 1544 and 1546 and are involved in legal processes.

Screening Equipment Certification Assistance

We can assist manufacturers get TSA certification for screening products such as metal detectors, x-ray equipment and ETD's.

Security:
